

A photograph of two men in a recording studio. The man on the left is a Black man with short hair, wearing a white long-sleeved shirt and white headphones around his neck. He is smiling and looking at a computer monitor. The man on the right is a white man with short hair, wearing glasses, a blue button-down shirt, and black headphones around his neck. He is pointing at the monitor with his right hand. The monitor displays a digital audio workstation interface with several tracks of audio waveforms in yellow and red. The background is a dark room with acoustic foam panels on the walls. The overall lighting is dim and blue-toned.

# PRISTINE SOUND

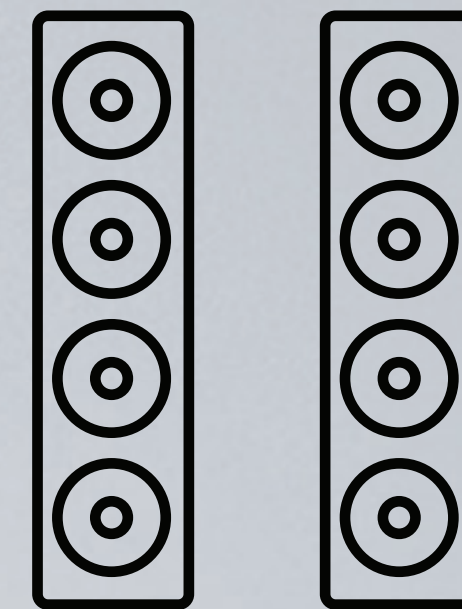

The preamplifier was entirely designed with attention to each detail, in the seeking of a **pure and natural sound for superior clarity**, enabling the full sonic potential of the mixing console.

# CONNECTIVITY

STAGEGRID 4000

With Soundgrid technology, the device is fully integrated into the Waves ecosystem. Soundgrid enables **connection of up to 16 devices in the network** and, with the processing power of one of the Waves servers, a multitude of live plugin can be played with incredible low latency.

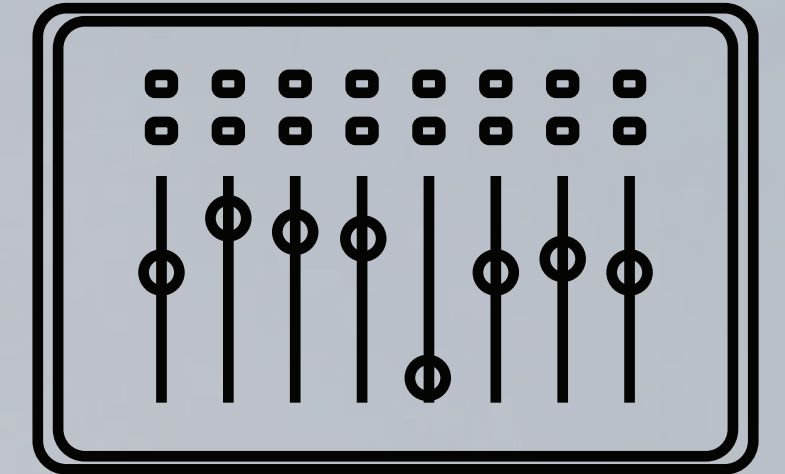

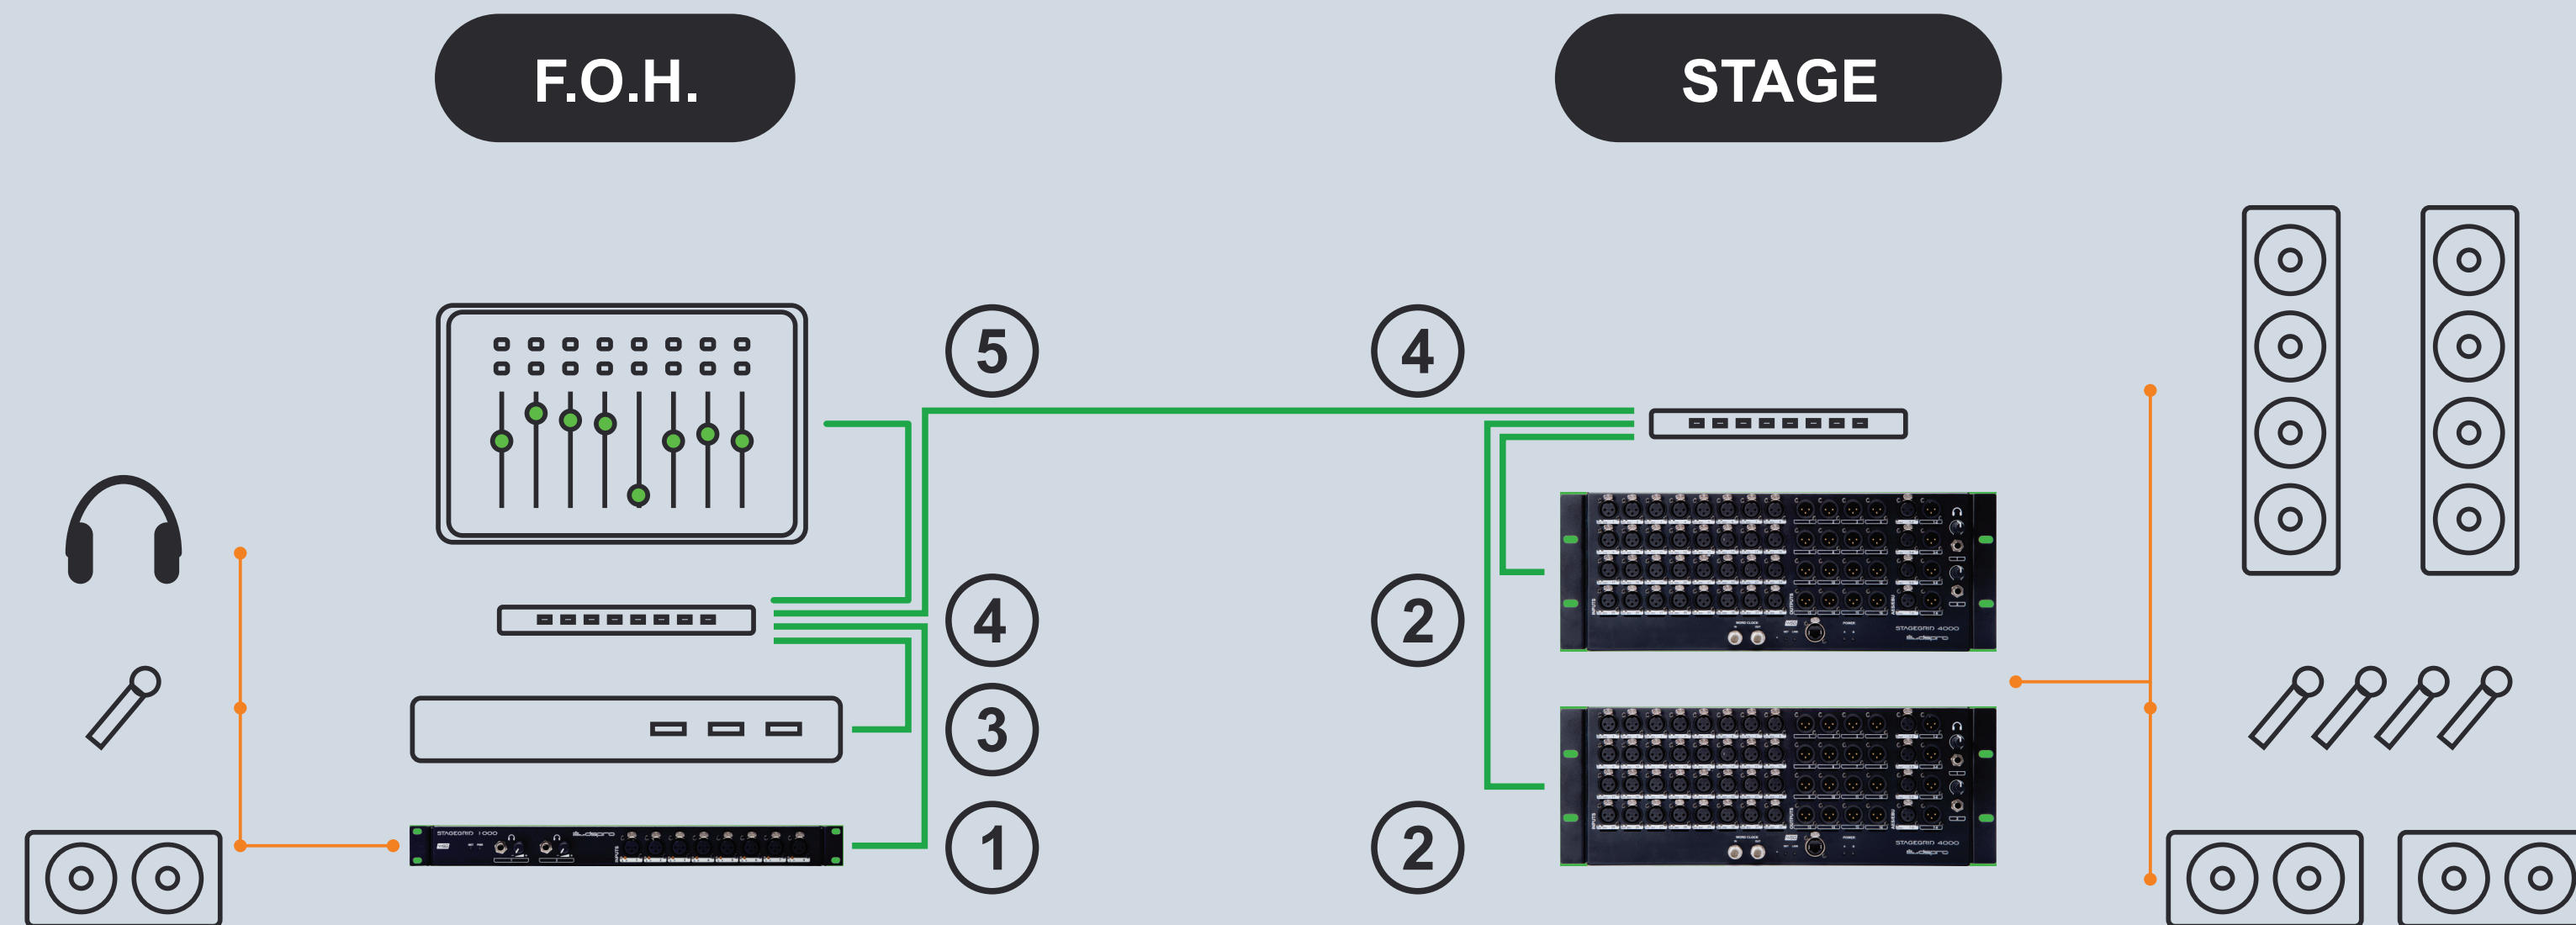

# ROAD READY ROBUSTNESS

STAGEGRID 4000

Designed for the Road, each component was carefully selected to improve system reliability and strength. Including redundant power supply units.
